IBM Singapore Ring 115: John Teo: "Right from the word "go", we were all kept laughing by Wolfgang with his witty jokes and one-liner antics. His energy in the room was quite contagious – we all caught it as we sat upright, paying full attention to him, with our lips often breaking out into smiles, as we savoured in and enjoyed every clever joke he cracked as he performed each effect. Attending this lecture had inspired us to be more creative with our own magic. The feedback from the participants was that this was one of the best lectures they had attended."
